WAKEFIELD'S WESTERN FARMER'S ALMANAC

1871.

Circulation, 1,000,000.

PUBLISHED BY

C. WAKEFIELD & CO.

PROPRIETORS OF

**Wakefield's Family Medicines,
BLOOMINGTON, ILL.**

WHOLESOME ADVICE.

If you would avoid sickness and doctor bills keep a few dollars worth of WAKEFIELD'S MEDICINES on hand to use promptly when needed. "One stitch in time saves nine." A few dollars applied as preventives and in treating first symptoms of disease generally saves from ten to one hundred-fold in money paid to doctors and in loss of time. Time is money, because with it you earn money, and suffering cannot be remunerated with money.

WAKEFIELD'S WINE BITTERS and LIVER PILLS are great preventives of disease and very mild cleansing remedies. They should be found in every lady's pantry or cupboard. How often do persons retire at night with headache and a bilious stomach, and for the want of these potent remedies a fever becomes located and they are the next day under the care of a physician.

It is conceded by all who have tried it that Wakefield's BLACKBERRY BALSAM is the most speedy remedy for *Diarrhea*, and the best regulator of the stomach and bowels yet discovered. It is pleasant to take, immediate in effect, and no injury results from over doses. It should be used very freely in severe attacks. It is also much used for children in teething and summer complaints. It should also be always within reach.

If your children have symptoms of worms or are fretful and unthrifty, get a box of Wakefield's WORM DESTROYER and give them regularly three or four lozenges a day, which will soon overcome those symptoms.

For coughs and sudden colds all know the importance of having a prompt, reliable remedy at hand, and for that use our COUGH SYRUP has proved *eminently successful*.

For Ague and Fever our FEVER SPECIFIC is a sure and an old standard remedy. It has been successfully used for over twenty years. As many persons prefer taking medicine in the form of pills we have concentrated its ingredients in our AGUE AND FEVER PILLS, and put them up (sugar coated) in sealed bottles, which can be sent by mail if desired.

For Piles (external) use our EYE SSLVE.

C. WAKEFIELD & CO.

1871

TO THE PUBLIC.

We here ask your attention to our annual Calendar (the **XITH** Volume) for the year 1871. This Calendar has been accurately calculated by ourselves for Lat. 40° N. and Long. 90° W. from Greenwich, which will be found sufficiently accurate for the States lying between Ohio and Colorado. We shall circulate of this Volume 1,000,000 copies in three languages, namely: English, German and Norwegian.

We are distinctively western men by adoption, and use our efforts to make the West self-supporting. We furnish labor to about thirty-five persons, half of whom are females. We do our own manufacturing of paper pill boxes, lozenge boxes, packaging boxes, wood packing boxes, manufacture our own Lozenges, make and sugar-coat our Pills, do our own printing, binding &c. Thus we furnish labor to as many of our citizens as we can, and believe if all our men of means in the West would do the same, and turn their attention to manufacturing we should have very few persons out of employment and very few paupers and loafers.

Our Remedies are most especially adapted to the diseases of the West and have proved successful beyond a parallel. Our **BLACKBERRY BALSAM** and **LIVER PILLS**, we believe, are triumphs far above any remedies ever presented for the same uses.

All our remedies are genuine, legitimate articles, and are rapidly gaining public favor. We shall ever strive to make them worthy of your patronage, and by that means continue to successfully compete with all Eastern manufacturers.

Respectfully, yours,

C. WAKEFIELD & CO.

Dr. WAKEFIELD'S FAMILY MEDICINES,

— PREPARED BY —

C. WAKEFIELD & CO., *Bloomington, Ill.*,

Consist of a variety of Remedies, thoroughly adapted to the different diseases of the West. These Medicines are for sale at manufacturers' prices by all Wholesale Drug-gists in the Western States.

Catalogue, with Retail Prices.

Fever Specific	-	\$1.00	Sore Throat Lozenges	-	25
Ague and Fever Pills	-	1.00	Nerve and Bone Liniment,	-	25
Cough Syrup	-	35	Cathartic Pills	-	25
Cough Syrup, med.,	-	70	Liver Pills	-	25
Blackberry Balsam	-	35	Rheumatic Plaster	-	25
Worm Destroyer	-	25	Eye Salve	-	25
Wine Bitters	-	75	Egyptian Salve	-	25
Egyptian Liniment	-	25	Brown's Rat Killer	-	25
" " med.,	-	50	Essences and Drops	-	15

These Medicines have been before the public twenty-four years, in the care of the same Proprietor. None but the best of drugs are used, and their properties extracted in the most approved manner by persons interested in their success; hence they are preserved pure and free from all adulteration.

They are particularly adapted to the diseases most prevalent in the West, and they have grown in popular favor wherever they have been introduced. These Medicines are particularly adapted to the use of people in the country, who live at a distance from a reliable physician, and families who depend on them find it a great matter of economy, in saving large doctor bills, much bodily suffering and valuable time.

All who keep these medicines on hand and use them promptly on the first indications of disease, will be rewarded by happy results.

WAKEFIELD'S COUGH SYRUP.

There is not perhaps a single remedy before the public that has saved the consumer so much expense of doctor bills, or so many severe spells of sickness, or been of such sterling value in times of affliction, as this COUGH SYRUP. It is not composed of a single ingredient as a pretended new discovery, but is a scientific collection and concentration of the best vegetable remedies known to the medical faculty. The great skill is in so compounding the several remedies that they shall prepare the system for the most favorable results.

This, the Proprietors claim, has been achieved in this compound, and they are fully aware that when used freely it will combat Typhoid Fever, sudden Colds, engorgements of the system, Measles and Whooping Cough, more effectually than any remedy before the public. It relieves engorgements by equalizing and harmonizing the action of the circulating fluids and stimulating the torpid organs to healthy action.

COLDS.—The sooner you begin the treatment for a sudden cold the better. Consumption generally originates in a cough, produced by a cold. When the system is torpid or bilious, it is less able to resist the effects of a cold.

Commence early by taking a full dose of LIVER PILLS, bathe the feet in hot water, take the COUGH SYRUP in large doses and cover up warm in bed. If you take COUGH SYRUP enough to produce nausea of the stomach, all the better for the final result. Go thorough and be quiet for twelve hours and break it up effectually.

Before leaving the bed, after relaxing the pores, rub the skin all over lightly with a cold wet cloth, under the bed clothes, then with a dry one, then with the naked hand, until you produce a glow on the skin by the friction, thus fortifying the skin against more cold.

MEASLES.—Give the patient freely of the COUGH SYRUP to produce perspiration and drive them out; also sponge the patient all over with warm water under the bed clothing, every half hour when the fever is on, which will soften the skin and hasten the process of bringing out the measles.

CROUP.—Requires prompt attention. Give large and frequent doses of COUGH SYRUP.

IN WHOOPING COUGH.—This SYRUP quiets the irritation, loosens the cough and shortens the duration of the disease. When the whooping is severe give larger doses and have the patient wear a RHEUMATIC PLASTER on the back opposite the lungs.

ASTHMA.—Use the COUGH SYRUP freely.

Miscellany.

A friend of ours was coming to New York from Albany, and just opposite him in the car sat a lady and her child, the latter a beautiful little girl, with wonderfully bright eyes and a sweet, winsome face, the very picture, in miniature, of her mother. She attracted much attention as she moved about the seat. An elderly gentleman, passing through the car, looked into the witching thing's eyes and was fascinated at once. Stopping, he gently patted her cheek, and asked: "Won't you give me a kiss, pretty one? I like to kiss little girls." She looked at him very archly for an instant, and then propounded the rather embarrassing question: "Wouldn't you rather kiss mama?"

"A STITCH in time saves nine!" is as true as it is old, and it is also true that one dose of Wakefield's LIVER PILLS or BITTERS will often prevent a long and severe illness and an exorbitant doctor bill.

AN OLD bachelor, who bears his lonely state with much equanimity, says: It is better to be laughed at for not being married, than to be unable to laugh because you are.

JOHN, said a master to his apprentice, before starting on a journey; you must occupy my place while I am absent. Thank you; said John; I'd rather sleep with the boys.

TO THE INVALID.

If you are declining in health, with loss of appetite and other dyspeptic symptoms, use the WINE BITTERS. If you think you are in any way threatened with Consumption, use the COUGH SYRUP and WINE BITTERS together, taking the Bitters before meals and the Syrup between meals. The Cough Syrup relaxes the tissues and starts the impurities toward the surface, while the Bitters regulate the stomach and liver, cleanse the blood and invigorate the system so as to enable it to overcome the disease. Persevere in their use for some time.

If this does not give relief in a few days, or if Consumption is more deeply seated, take a thorough treatment for about two days by taking double or triple doses of Cough SYRUP and more frequently repeated, until nausea of the stomach and relaxation of the system is produced; then lessen the doses enough to only keep up that condition for four or five hours; then still reduce the size of the doses until no longer required.

There is no way of routing disease from a stronghold equal to equalizing it through the system and opening the waste-gates for its expulsion. Turn the course of the fluids to the surface; keep the skin soft and the pores open for their free exit, by light sponging under the bed clothes. Before the patient is exposed to the air his skin should be sponged and rubbed very thoroughly with the naked hand to give it renewed activity. As the relaxation subsides the BITTERS should be used three or four times a day, and the COUGH SYRUP occasionally in common doses.

TYPHOID FEVER.—This fever comes on, sometimes suddenly with a chill, and other times with great loss of strength and depression of spirits; a sense of weakness, trembling of the muscles, and chilly feelings mingled with the fever. Its symptoms are generally known to the public.

In treating it, first give a dose of Wakefield's LIVER PILLS, and produce an evacuation of the bowels. Then give freely of the COUGH SYRUP until the tension of the system is relaxed, using also the wet hot compress over the seated pains. Frequent sponging under the bed clothing is of great use, and the feet should be soaked often in warm water. For further instructions see directions with the medicine.

 An American girl loves with her eyes, an English girl with her arms, a French girl with her lips, and Italian and Spanish with all three. A Boston woman capitulates in three months, a New York woman in two, and a New Orleans woman in one. Causes: partly climatic and constitutional, and partly a few words from the old folks. [5

WHY is a blush like a little girl? Because it becomes a woman.

Solemnity.

THE rule for testing a christian: Set him to putting up unmatched stove pipe; then listen down the stove pipe hole.

Wakefield's LIVER PILLS clean off the Liver and cleanse the stomach without debilitating the system or interfering with daily business.

It is related of a certain minister of Maine, who was noted for his long sermons, with many divisions that one day, when he was advancing into the 'teens, and had thoroughly worried his hearers, he reached at length a kind of resting place in his discourse, when pausing to take breath, and looking about over his audience, he asked the question: "And what shall I say more?" A voice from the congregation, more suggestive than reverent, earnestly responded, "Say amen!"

THE best preventives of disease are Dr. Diet, Dr. Quiet and Dr. Merryman, but if you get sick use Dr. Wakefield's Family Medicines.

LOST.—Calf; ret as vot never vos pefore. His two behint legs vos vite. He vos a she calf. Everybody vot catches him gibbs tree dollar.

THE vail which covers the face of futurity is woven by the hand of Mercy.

LABOR.—The work of all who do not like to work.

READ THE FOLLOWING.

MRS. W. R. LISTON, of St. Louis, writes a long letter from which we cull the following relative to the **COUGH SYRUP**: * * I have been troubled for a long time with Asthma, and have tried many things, but never received any real benefit until I used your **COUGH SYRUP**. I feel now that I am entirely cured and can recommend it to any one suffering from the same complaint.

E. SCHOUTEN, of Arcola, Ill., writes: My little child (only a babe) had the Whooping Cough so badly we despaired of ever being able to raise her, but after trying every thing we could hear of, we had your **COUGH SYRUP** recommended and it brought her out safely. We think her life was saved by it.

JOHN W. DORN, of Mulligan's Grove, Ill., says: I am happy to inform you that by the use of your **WINE BITTERS** and **LIVER PILLS** my wife is restored to perfect health, after trying every remedy and following the advice of doctors east and west, north and south.

S. H. SMITH, of East Fork, Montgomery County, Ill., says: I have annually had a severe sickness until I began using your **WINE BITTERS**, and I have taken nothing except a few of your **LIVER PILLS**, and I have not lost a day nor missed a meal for three years. We have no other medicine in our family, and, in fact, our old family physician, Dr. L. F. Stoddard, recommends your medicines to be as good as any thing he can give.

HENRY MORSE, of Middletown, Ill., says: My child three months old, took the croup and was very bad, and I do not think she would have lived an hour without relief. I gave her three large doses of your **COUGH SYRUP**. The first gave considerable relief, and the three cured her.

A. S. WHEELBARKER, of Bottsville, Mo., says: My child, six months old, had a violent attack of croup. I tried several remedies to no effect. Your **COUGH SYRUP** gave immediate relief, and the child was cured entirely. I have tried it for colds of long standing and find it to be the best medicine I ever used.

ALANSON HARRIS, of Terre Haute, Indiana, says: I would promulgate the fact everywhere that your **COUGH SYRUP** is not excelled as a remedy for Measles, and it seems to be the only thing required.

REMEDY FOR MOTHS.—One oz. gum camphor, one oz. powdered cayenne or red pepper, and 8 oz. alcohol. Mix and let them stand in a warm place one day; then strain and sprinkle the clothes or furs, and box them or wrap them tight in cloth or paper, to keep the medicine in and the moths out.

Sayings.

KIND words are the loveliest flowers of earth's existence; they make a very paradise of the humblest home that the world can show. Use them, and especially round the fireside circle. They are jewels beyond price, and more precious to heal the wounded heart and make the weighed down spirits glad than all the other blessings the world can give.

Wakefield's WINE BITTERS before breakfast, for loss of appetite.

A preacher in Berks Co., discoursing about Daniel in the lion's den, said: "An' thar he sot, all night long, lookin' at the show for nothin' and it didn't cost him a cent."

FIDELITY, without prudence, never reaches its aim in a hazardous enterprise.

Flour of sulphur, thrown into the fire when a chimney is on fire, extinguishes the fire.

If you have Chills and Fever, you will find our FEVER SPECIFIC or our Sugar coated AGUE AND FEVER PILLS a sure remedy.

"MOTHER, Sam wants to come courting me to-night," said Jemima. "What did you tell him?" "O, I told him he might come; I felt anxious to see how he will act."

A smile is ever the most bright and beautiful with a tear upon it. What is the dawn without the dew?

WAKEFIELD'S WINE BITTERS.

This thorough Alterative and strengthening remedy is gaining reputation with the public more rapidly than any other of our preparations. In fact the demand for it has continued to rapidly increase.

Since June, 1868, we have added to its former recipe two valuable blood alteratives, and shall spare no expense or care in making it ever worthy of the unbounded confidence of the public as a most thorough blood purifier. Its strengthening and regulating effects on the digestive organs are well known. It is not designed for a beverage. There is no cheap rum or whisky in it.

Pure Native wine and neutral spirits are used in extracting the medical properties from the drugs. It is entirely vegetable and free from all deleterious substances.

GENERAL DEBILITY.—Persons declining in health, tending towards consumption, dyspepsia, or any chronic form of disease, cannot find a better remedy than these BITTERS. They should buy a half dozen bottles and continue its use properly for some time, to cleanse the blood and invigorate the system. It will regulate the action of the liver and overcome constipation.

FOR COSTIVENESS AND INDIGESTION.—Take first a full dose of LIVER PILLS and follow with the BITTERS three times a day. Use coarse, plain food and eat light meals. Avoid sweet, fatty and very sour food. Eat stewed fruit that does not require much sweetening, such as prunes, figs, peaches, apples and blackberries. Strong acids irritate a weak stomach, and too much sweet changes to a strong acid on the stomach, producing irritation and constipation.

BILIOUSNESS.—Is indicated by a bad or bitter taste in the mouth, tongue coated, no appetite, &c. Take a full dose of LIVER PILLS and follow with the BITTERS three or four times a day. As a preventive of biliousness take one dose of the BITTERS every morning before breakfast.

FOR HEADACHE.—Take large doses of the BITTERS. If very costive take a full dose of LIVER PILLS first.

FOR HEARTBURN, Waterbrash and Acidity of the Stomach.—Eat one or two THROAT LOZENGES, to neutralize the acids and to keep in check the exciting symptoms, then take the WINE BITTERS to restore a healthy action. The stomach should rest for several meals after a spell of Heartburn.

FOR BOILS, Sores and Humors in the Blood.—Use the BITTERS three times a day, from fifteen to thirty minutes before each meal. Eat light meals while doctoring the blood and never eat to fullness. A dose of LIVER PILLS, if taken when a boil first makes its appearance, will greatly check the growth and mitigate its severity.

Truth.

A clock is like a man; it has two hands, a face, an inside, an outside. Sometimes the hands point to the truth, but it is not ashamed to show its face when they do not.

"Do you like rum?" said an Englishman one day to a Chinaman. "No sir!" "Why not?" "Rum not proper, sir. Rum make Chinaman No. one fool," replied the son of the celestial kingdom.

You will prevent much sickness and often save life by having a variety of Dr. Wakefield's Medicines at hand for instant use.

KNOWLEDGE is modest, cautious and pure;

IGNORANCE boastful, conceited and sure.

TO CURE A FELON.—As soon as it makes its appearance wrap it up with several thicknesses of cloth, and keep the cloth well saturated with tincture of Lobelia. If you cannot procure this, make a strong poultice of poke root and tobacco, adding salt and hard soap.

If you sprain your ankle or have any stiff joints, our EGYPTIAN LINIMENT will speedily cure them.

A down-east girl being bantered one day by some of her female friends in regard to her lover, who had the misfortune to have but one leg, replied: "Pooh, I wouldn't have a man with two legs—they're too common."

MORE ABOUT BITTERS.

JAUNDICE—Is soon cured by using the **BITTERS** regularly and the **LIVER PILLS** twice a week.

FOR KIDNEY DISEASE—Use the **BITTERS** and apply the **RHEUMATIC PLASTER** across the small of the back.

TURN OF LIFE.—The **WINE BITTERS** may be relied upon to keep the blood pure and the strength good to endure the change, and is useful in all female weaknesses.

FOR SCALD HEAD and old Sores that will not heal, or that have proud flesh in them—Apply the **EYE SALVE** and cover with a thin cloth to keep it applied, and take the **BITTERS** internally.

Symptoms requiring the use of Wakefield's Strengthening Wine Bitters.

Dyspepsia, Loss of Appetite, Constipation, Heartburn, Waterbrash, Acidity of the Stomach, Dull Headache, Swimming in the Head, Sick Headache, Numbness of the Limbs, Frequent movable Pains, Fluttering at Pit of the Stomach, Wasting of Flesh and Strength, Scrofula, Kidney Disease, Rheumatism, Jaundice, Enlargement of the Spleen, Declining of Health, Pain or Heaviness in Right Side, Fullness of Blood in the Head, Nausea of the Stomach, Fullness or weight in the Stomach, Aching in the Bones, Slow Fever, Dimness of Vision, General Weakness, Constant Imaginary Evils, and Depression of Spirits.

SICK HEADACHE.

A. C. WALSWORTH, Fairmount, Mo., says: I have been selling your Medicines for the last year, and find that the people think them of great value. A man in this place, by the name of Webb, about 66 years old, has been afflicted with Sick Headache from boyhood. Two bottles of your **WINE BITTERS** have completely cured him.

Your **WORM DESTROYER** has also done wonders for a daughter of Mr. Litz, of this place.

CHRONIC DIARRHEA.

A. M. STURMAN, Little Prairie, Hamilton Co., Ill., says: I am not much inclined to puff, but I would like to have you know that the people of this vicinity think your Medicines are invaluable. Your **BLACKBERRY BALSAM** has cured many cases of flux and diarrhea, and one old lady in particular, who had chronic diarrhea, was cured with three bottles.

Good Words.

An able writer gives utterance to the following valuable secret:

This looking forward to enjoyment don't pay. For what I know of it I would as soon chase butterflies for a living or bottle up moonshine for cloudy nights.—The only way to be happy is to take the drops of happiness as God gives them to us every day of our lives. The boy must learn to be happy while he is learning his trade; the merchant at his desk while yet making his fortune. If he fails to learn this art, he will be sure to miss his enjoyment when he gains what he has sighed for.

JAUNDICE is soon cured by using the BITTERS regularly and the LIVER PILLS twice a week.

HOOPS surround all that ruin man—Wine and Women.

In whatever sphere you may be, do the best you can, trusting in God to reward your efforts according to their just dues.

SIMPLE CURE FOR PILES.—Swallow ten kernels of black pepper three times a day, say at morning, noon and eve. Relief, if not a thorough cure, will result in a few days.

FOR teething and diarrhea in children make a continued use of the BAL-SAM, while the irritation of teething continues, and rub the gums with the medicine, also.

WAKEFIELD'S WORM DESTROYER.

This valuable remedy, in Lozenge form, has met with an extensive sale, given very great satisfaction in use, and has proved to be a valuable public remedy. They cleanse the bowels and stomach of the slimy matter in which worms are bred, correct bilious and fretful symptoms, act on the kidneys and restore to health all pale, unthrifty looking children.

Spasms in children are most frequently the result of Worms. When a child is irritable and feverish, sometimes craving food and eating ravenously, or refusing wholesome diet, restless in sleep, moaning and grinding the teeth, then be assured these symptoms are Worms, and no time should be lost in giving WAKEFIELD'S WORM DESTROYER according to directions.

On some children a few doses, and in some cases even the first dose, has carried off a large number of worms; in other cases the worm symptoms disappear without the worms becoming visible.

These Lozenges are a safe remedy to administer, not disagreeable to take, and the most effectual of any before the public.

SOME OF THE TESTIMONY.

A Prompt Response.

H. J. DEVORE, of Mt. Ayr, Iowa, writes as follows:— I wish to inform you of my success with one box of your Worm Destroyer. My boy, two years old, had not been able to lift his head from the pillow for one year. I had tried Fahnstock's Vermifuge, McLean's Vermifuge, Pink and Senna, and several skilful physicians, all to no effect. From reading your Almanac I was induced to try your WORM DESTROYER, and after the second dose he began to pass worms and continued for several days. From that time he commenced gaining, and in two or three weeks could run about. I owe you many thanks for a remedy that saved the life of my child and restored him to health so speedily.

SEE HERE.

MARY A. PORTER, of Kilbourn, Iowa, writes: I wish to give my opinion publicly in regard to your WORM DESTROYER. Last December one of my children (under two years of age,) was troubled with worms, and I gave two Lozenges, one at night and one in the morning, and by 10 o'clock that day she passed forty-five worms. Clippings.

PLEASURE is precarious, but virtue is immortal.

HE who has to combat an enemy in his own breast, has a harder task than he who has to encounter one on the battle field.

A little girl, who was sent out to hunt for eggs, thou't it strange she did not find any, as there were several hens standing around doing nothing.

USEFUL domestic cookery—making both ends 'meat.'

To prevent Ague and Fevers of any kind, use Dr. Wakefield's WINE BITTERS every morning.

Farmers will find it a matter of economy to use the BITTERS as a preventive. They can digest more food, and do one quarter more work without getting sick.

WHILE smoking meats with saw dust or chips, put on the fire a few red peppers. The fumes will prevent all insects from attacking your meat.

A wise man may be pinched by poverty, but only a fool will allow himself to be pinched by tight boots.

TRUTH is like cork; you may keep it down while a pressure is upon it, but it is sure to come up to the surface at last.

Heat is swifter than cold. Anybody can catch cold.

A LITTLE girl wanted to say that she had a fan, but had forgotten the name, so she described it as "a thing to brush the warm off you with."

BEST REMEDY FOR THE BOWELS.

Wakefield's Blackberry Balsam

Is the best known remedy for all forms of Diarrhea; all relaxed conditions of the stomach and bowels, colic, children's teething, etc. It is a standard remedy and a staple article in the West; is pleasant to take; gives speedy relief to all pain and diarrhea, and leaves the bowels in such a healthy condition that persons using it once will not forget to try it again if they ever need its use.

It speedily cures Diarrhea, Cholera Morbus, Flux, Dysentery, Camp Diarrhea and attacks of Cholera. It regulates the bowels of children while teething, cures Colic in children or adults, and is used successfully for flatulency and sour stomach.

Attacks on the bowels are generally sudden and unexpected; therefore every person is advised to keep this valuable remedy always in the house, and thus avoid much delay and suffering while it is being obtained. For violent attacks, cramps, or colic pain, take double or thrifble doses. For Cholera Morbus take teaspoonful doses every five or ten minutes, to settle the stomach, as larger doses would be thrown off.

CHOLERA INFANTUM AND SUMMER COMPLAINT in children are generally caused by teething, but may be produced by other causes that irritate the nervous system and debilitate the action of the digestive organs. The mother should commence early and attend promptly to these diseases and not allow the child's flesh and strength to be wasted too early in the season, as the exciting cause may continue till cold weather and provoke new attacks of the disease.

Give the BLACKBERRY BALSAM in doses sufficient to keep the bowels in check and under proper subjection, and while they are thus checked up give small doses of WINE BITTERS, reduced half with water, to strengthen the digestive organs. Continue to give the BALSAM in smaller doses, and see to keeping up a healthy action for many days, until the system recuperates and the digestive organs get strong. Give the child scalded milk, toast and light food only. Children who have feeble, nervous systems, and weak digestive organs, cannot endure teething in the summer season without the greatest care. For children reduce the BALSAM half with water and they will take it cheerfully.

FOR COLIC—Give large doses and apply hot flannels externally.

A. D. LIVINGSTON, of DeWitt, Mo., says: Your BALSAM cured a case here of a year's standing. [15.]

Varieties.

"HANS, where do you live?" "Acrost der river mit der turnpikes by the school as you go up mit your right hand on der odder side."

IN Fishing for crabs, use your fingers for bait. You can feel them when they first bite.

A YOUNG greenhorn was told that if he pressed a certain bashful young lady she would sing. The next evening he asked her to sing and she excused herself.—"Why, Tharah," said he, "don't you think you could thing if I thqueethed you a little?"

TO KEEP the Doctor out of your house.—On the first appearance of bilious symptoms, arouse the liver to action by using, every night, two of Wakefield's LIVER PILLS, three or four nights in succession.

THE man who isn't afraid of thunder, talks of going to the springs next week, without asking his wife.

A NOBLEMAN, observing a person eminent for his philosophical talents, intent upon choosing delicacies at the table, said to him, "Do you philosophers love dainties?" "Why not," returned the other; "do you suppose, my lord, that all the good things of this world were made for blockheads?"

FAMILIES of respectability are not jealous of it, but upstarts are always guarding their respectability.

WAKEFIELD'S FEVER SPECIFIC.

This long tried and standard western remedy has been successfully used in the Western States for over twenty years, and now needs no further introduction except to new settlers who are yet unacquainted with its immediate and patent effects.

It cures, with unerring certainty Ague and Fever, Intermittent Fever and continued Bilious Fever, and small doses will successfully protect a person from bilious attacks when unusually exposed. I have known some persons, attacked with the Ague, in time of harvest, when they could not spare time to be sick, to take freely of the SPECIFIC and break it up; then continue to take a few doses every day, and work on without any relapse. Some persons are so constituted that less than the average doses will soon produce the desired effect, and if the doses are not then reduced, will produce a slight roaring in the head. When such effects are produced, its use should be discontinued, except, perhaps, one or two doses a day. Bilious attacks require one active dose of LIVER PILLS before commencing the FEVER SPECIFIC.

TESTIMONIALS.

GEO. HAYWOOD, of Clifton, Io., under date of March 15, '69, writes: Although I have sold Dr. Wakefield's and other Medicines for years, I was never much of a believer in any of them, but from two cases of positive cure of the Sick Headache, where the parties had been afflicted from childhood, which came under my immediate observation, I am forced to conclude that Wakefield's WINE BITTERS, if thoroughly used, will effectually cure this complaint.

DR. J. A. WELCH, of Filmore, Ind., under date of Jan. 16, '69, writes: * * * I would say further that your Medicines are in great demand here, and the people say whenever they have any bowel complaint they never fail to find relief in using your BLACKBERRY BAL-SAM, and I am conscious of the fact that they do not exaggerate when they tell of the great cures performed by it.

J. W. HARSH, of New Virginia, Iowa, writes: Your COUGH SYRUP is the best in use. I have cured my children of croup on several occasions, and I would not be without a supply in the house.

E. SCHOUTEN, of Arcola, Ill., writes: * * * My little child, only a babe, had the Hooping Cough so badly we despaired of ever being able to raise her, but after trying everything we could hear of, your COUGH SYRUP was recommended and it brought her out safely. We think her life was saved by it.

Cool Sayings.

CARDINAL Wiseman's dying words were: "Well, here I am at last, going home for the holidays."

CROUP—Requires prompt attention. Give large and frequent doses of COUGH SYRUP.

IN A Sunday School the teacher was impressing the minds of her class with the fear of hell, when one of the boys exclaimed: "Wouldn't it be a good thing if the ocean should bust and put hell out."

A PEDANT remarked to a farmer, "I cannot bear a fool."

"Your mother could," was the reply.

NEVER waste arguments on people who don't know logic from logwood—which is the case with half the folks who love disputation. The best reply to a stolid dogmatist is to say, "Certainly—no doubt of it—it's as clear as mud."

TURN OF LIFE.—Fluor Albus (Whites) and Turn of Life, require a persistent use of the BITTERS and PLASTER.

BETTER be called a fool for doing right than be a fool in doing wrong.

"THE greatest obstacle in the way of becoming a hero (ine) is the fear of making a fool of oneself."

HE who is at war with his neighbor cannot be at peace with himself.

A HOSPITABLE man is never ashamed of his dinner when you visit him.

WAKEFIELD'S RHEUMATIC PLASTER.

This is a very thorough PLASTER for relieving deep seated pains, Rheumatic pains, Lameness of the back or side, Kidney diseases, Paralysis, Ague Cake, Corns, &c. It is very strengthening to weak and lame backs, and regulates the irregular action of the kidneys. Laborers find it a good coating for cracks and sores.

FOR RHEUMATISM, Paralysis, Palsy and weak or inactive condition of the limbs: Apply a large PLASTER across the spine, between the hips, and small ones on the inside of the arms near the wrists, and rub the parts between, and also the spine, very thoroughly with the EGYPTIAN LINIMENT three times a day. By this arrangement a magnetic action is established between and under the Plasters which arouses the torpid nerves to healthy action.

FOR CORNS.—Soak the corn well and pare thin; then cut a hole the size of the corn in a piece of buckskin and lay it over the corn of sufficient thickness to relieve the pressure of the shoe from the corn. Fill the hole on the corn with Plaster and bind the whole firmly with a thin rag, and wear it for a week. If not fully cured pare it again and renew the plaster.

EXCESSIVE MENSTRUATION and Female Weakness.—A few days before the expected return of the menstrual period, apply one of these Plasters across the spine with the center opposite the hips, and take the BITTERS regularly. This treatment will enable the system to repel the prostrating effects of that period and improve the general health. If flooding occurs, cold local applications are needed in addition.

TURN OF LIFE.—Fluor Albus (Whites) and Turn of Life require a persistent use of the BITTERS and PLASTER.

DISEASE OF THE KIDNEYS and any weakness in the loins, are speedily relieved by the use of this PLASTER. It is a great regulator of the action of the Kidneys.

AGUE CAKE—Is readily cured by wearing a PLASTER over the Cake and taking the BITTERS regularly.

READ THIS.

SIMEON SMITH, writing from Attica, Ind., says: I have been afflicted for many years with acidity of the stomach, constipation and a heaviness through my right side, so much so that I could not lay in one position long without a heavy aching from it. Two months ago I purchased four bottles of your WINE BITTERS, determined to give it a good trial. I am happy to inform you that I believe I am cured and feel like a new man. My mental powers, as well as my physical are renewed. I advise others to try this valuable remedy.

Miscellany.

WHEN Christianity is fruitful of speculation and barren of good conduct, infidels will always abound.

KIDNEY Disease and any weakness in the loins, are speedily relieved by the use of WAKEFIELD'S PLASTER. It is a great regulator of the action of the kidneys.

A CONSTABLE in Texas writes the following interesting notice of a sale:

NOTIS.—Vill pe solt Montay vas a week, von silver sphoon, von putter pasin, von musical instrimen, and von sow mit pig py me.

A BOY, who had heard the quotation: "A little learning is a dangerous thing," wished to stop going to school, because he was afraid he should not live to get past the dangerous point.

SOME philosopher advises the girls not to marry blacksmiths—because they all have hardened vices.

SYPHILIS.—Wakefield's WINE BITTERS are particularly adapted to the total eradication of any Syphilitic poisons.

WHEN a rich man leaves his fortune to charitable institutions he makes each particular heir to stand on end, like quills upon the fretful porcupine.

AN old author quaintly remarks: "Avoid argum't with the ladies. In spinning yarns among silks and satins, a man is sure to be worsted and twisted, and he may consider himself wound up."

WAKEFIELD'S LIVER PILLS.

A more perfect and effectual combination for promoting a healthy action of the Liver, and cleansing the stomach and blood, has not been offered to the public than WAKEFIELD'S LIVER PILLS. They are a judicious combination of the choicest vegetable extracts, which have been proven by modern experience to be most effectual in regulating the liver and digestive organs. They contain no mercury, no mineral, or deleterious substance, and are harmless to the most delicate persons, and females in all conditions.

These PILLS are designed to promptly meet all the family wants of a reliable purgative and alterative remedy. By varying the size of the dose they answer equally well in bilious and other acute attacks, as in Liver Complaint and chronic diseases. They search, cleanse and invigorate every portion of the human organism, correcting its diseased action. Their action, though thorough, is mild and gentle; they never produce griping; their effect continues longer and is more thorough than that of a more active pill. They do not so materially disturb the functions of nature and produce prostration, like a more active cathartic.

A majority of diseases require the aid of alterative cathartic medicine. Pure blood will be secreted when the stomach is in a healthy condition, but when the stomach is foul and the bowels constipated we cannot have pure blood secreted any more than we can have pure water from a corrupt fountain.

These PILLS are designed to cure Liver Complaint, Dyspepsia, Headache, Nervous Debility, Jaundice, Costiveness, Eruptions of the skin, Scrofula, Salt Rheum and Enlargement of the Spleen; in larger doses, Bilious Attacks, Fits and Mental derangements.

These PILLS regulate the system without interfering with labor or digestion. Their action is so much in conformity with nature that they do not disturb the vital functions any more than proper food.

FIRST STEP.—Whatever disease may be threatening these PILLS are the first step in the treatment, and their timely use often saves a long siege of sickness.

For Liver Complaint, Constipation, or to cleanse the blood, take one or two pills every night, or just enough to ensure one good action of the bowels each day.

FARMERS will find it a matter of economy to use Dr. WAKEFIELD'S WINE BITTERS as a Preventive of all miasmatic diseases. They can digest more food and do one quarter more work without getting sick.

Small Beginnings.

AWAY among the Alleghanies there is a spring so small that a single ox, on a summer day, could drink it dry. It steals its unobtrusive way among the hills until it becomes the beautiful Ohio. Thence it stretches away a thousand miles, leaving on its banks more than a hundred villages and cities, and many a cultivated farm, and bearing on its broad bosom a thousand steamboats. Then joining the Mississippi it stretches away some twelve hundred miles more until it falls into the emblem of eternity. (That's the Gulf of Mexico.) It is one of the great tributaries of the ocean, which, obedient only to God, shall roll and roar till the angel, with one foot on the sea and the other on the land, shall lift up his hand and swear that time shall be no more. So with moral influence; it is a rill, a rivulet, a river, an ocean, boundless and fathomless as eternity.

DR. WAKEFIELD'S LIVER PILLS search, cleanse and invigorate every portion of the human organism, correcting its diseased action.

An old toper rebutted the argument of a temperance lecturer, by asking the following question: "If Water will rot the soles of your boots, what will be its effects on the tender coating of the stomach?"

FOR Frost Bites and Chilblains, use Dr. Wakefield's EGYPTIAN LINIMENT.

A FEW TESTIMONIALS.

A Lady's Experience.

DIX, JEFFERSON CO., ILL., JAN. 30, 1870.

DR. WAKEFIELD, Sir:—I will give you some of my experience with your valuable medicines. I have had several very severe attacks of Sore Eyes, have tried dozens of prescriptions, but never found anything to compare with your EYE SALVE. It works miracles, and almost instantaneously. I never want to be without it.

YOUR BLACKBERRY BALSAM, COUGH SYRUP and EGYPTIAN SALVE are just what they purport to be. They have been well tried and are extensively used throughout this vicinity. I had the Whooping Cough during the Fall of ' . My sufferings were greatly alleviated by the use of your COUGH SYRUP. My baby was attacked with intermittent fever last September. We employed the best physician in our town. He had her a little better one day and worse the next for two months, until our patience gave out and we agreed to give your FEVER SPECIFIC a trial. Before she had taken half a bottle she was well. When we commenced giving the SPECIFIC she could not stand or bear to sit up in the cradle.

Mr. McAdams had chills all one season, and his wife now and then for three years. Doctor's medicine, and everything else failing, they finally tried your FEVER SPECIFIC and it cured them both immediately and permanently, so that they had no relapse.

Yours, respectfully,

Mrs. HENRY WALLS.

A PREVENTIVE.

S. H. SMITH, of East Fork, Montgomery county, Ill., says: I have annually had a severe sickness until I began using your WINE BITTERS, and I have taken nothing else, only a few of your LIVER PILLS, and I have not lost a day or missed a meal for three years. We have no other medicine in our family, and in fact our old family physician, Dr. L. F. Stoddard, recommends your medicines to be as good as anything he can give.

I. T. CALDWELL, Athens, Clark county, Mo., says:—Having had a severe cough of six or eight months' standing, I tried several kinds of medicine supposed to be good, but found no relief. At last your COUGH SYRUP was recommended. I bought a bottle and two or three doses gave instant relief.

C. H. WARD, Altona, Ill., says: Your medicines are the thing for the people. I sell a large amount each year, and I have yet the first complaint to hear.

Clippings.

IF YOU would find many faults, look after the affairs of your neighbors. If you would find them in greater abundance still look within yourself.

WAKEFIELD'S HAIR RESTORATIVE restores gray hair to its original color, cures baldness and invigorates the growth of the hair generally.

USEFUL STEED.—A gentleman having a horse that ran away and broke his wife's neck, was told by a neighbor that he wished to purchase it for his wife to ride upon. "No," said the wretch, "I intend to marry again myself."

GENEROUS.—"Pompey, are you willing to be damned if it should be the Lord's will?" inquired a pious friend. "O, yes, massa, and more too; I am willing you be damned too."

WAKEFIELD'S WORM DESTROYER is a dead shot on worms in children or adults; are not disagreeable to take, and can be bought of any respectable druggist in the western States.

DETERMINATION.—Never go back. What you attempt do with all your might. Determination is omnipotent. If the prospect be somewhat darkened, put the fire of resolution to your soul, and kindle a fire that nothing but death can extinguish.

A MAN who trumpets his own fame will soon have no fame to trumpet.

WAKEFIELD'S CATHARTIC PILLS.

These Pills have been in public use for twenty years. They have a great reputation for the cure of the bilious attacks of this climate, and for all sudden attacks that require a thorough and speedy cathartic effect. They do not differ so essentially from the LIVER PILLS, except they have a much larger proportion of the more active cathartic ingredients. They may be used for Liver Complaint with good results, by giving them in smaller doses, and the LIVER PILLS may be used with good success in bilious and acute attacks, by giving them in larger doses.

Wakefield's Egyptian Salve.

This is a very cleansing and healing remedy for old Sores, Cracks, Cuts, Frosted Parts, Burns, &c., and is an excellent adhesive plaster for dressing fresh cuts and wounds, where the parts need to be confined in their proper places.

DIRECTIONS.—For Cracks and Sores, heat the end of the stick, and apply it hot enough to fill the cracks and adhere firmly to the skin. It will keep out the air and water, and soon heal the opening.

Remarkable Cures.

WM. C. LEWIS, of Cana, Jennings Co., Ind., says: I had my ankle badly injured by the falling of a bent at the raising of a barn. I tried every thing that could be heard of, without benefit. In reading your almanac I saw a certificate of your EGYPTIAN LINIMENT curing a case similar to mine. So I sent ten miles and procured a bottle. This one bottle has almost entirely cured me. One bottle more will do it completely.

WM. HOAG, of Salisbury, Sangamon Co., Ills., says: My wife was taken down with Typhoid Fever. I commenced with your FEVER SPECIFIC and gave a full dose every two hours for four days, when it broke up the fever. A doctor, a friend of mine, called in every day, examined the patient and the effects of the medicine I gave, and says he never knew so severe a case broken up in less time than four weeks, if at all. I would not be without this FEVER SPECIFIC in my family on any account.

B. H. PENDLETON, of Hallsville, DeWitt Co., Ill., sends the following: Your Medicines give the best satisfaction of any I sell. Your FEVER SPECIFIC never fails to cure, and your EGYPTIAN LINIMENT cures pain of all kinds; in fact I guarantee all your Remedies to do as represented.

Pleasant Paragraphs.

ONE of the sages says:— Don't go to law unless you have nothing to lose; lawyers' houses are built on fools' heads.

NEW wine put into old bottles sometimes leads to their bursting, and when put into old men it frequently leads to a "bu'st."

SOMEBODY says the Mississippi 'has raised one foot.' When it raises the other it will probably run.

FOR Frostbites and Chilblains use Dr. Wakefield's EGYPTIAN LINIMENT, bathing the parts freely.

MODESTY in a woman is like the color on her cheek, decidedly becoming, if not put on.

A MISSISSIPPI negro having worked on shares, and got "nuffin," explained by saying: "I worked for de seventh, and we only made de fifth; crop short."

AT Chenoa, Ill., Wakefield's COUGH SYRUP cured two cases of scrofula.

PAY down when you buy, then you won't have to pay up by and by.

NONE but the brave deserve the fair, and none but the brave can live with some of them.

A MAN was asked what induced him to make a law student of his son. "Oh, he was always a lying little scamp, and I thought I had better humor his leading propensity."

HUMAN reason is not God as some pretend.

EGYPTIAN LINIMENT.

This is the most stimulating and penetrating external curative agent before the public. It warms up the indolent nerves and muscles to vigorous action, softens the callous formations, relieves pain, cures lameness and strengthens the weaker parts. It has a good reputation for curing Sprains, Numbness of flesh, Rheumatic Pains, Stiffness of Joints, Soreness in the Liver, Spleen or Kidneys, Weakness in the Back, Frosted parts, and also for Sweeney, Spavin, Windgalls, Chafes, and all external diseases about horses.

This LINIMENT is very penetrating. When pains are deep-seated or of long standing, a little of this LINIMENT should be applied and the part rubbed with the naked hand until heat by friction is produced; then apply a little more, and so continue for some time.

INFLAMMATORY RHEUMATISM—Is distinguished by pain and swelling in the joints. Saturate cotton with the LINIMENT and bind it on the affected parts with flannel cloths. Put a RHEUMATIC PLASTER above and one below the joint, and use the WINE BITTERS, with one-fourth of an ounce of Iodide Potassa added to each bottle. Fresh attacks are cured by the LINIMENT alone.

FOR FROST BITES AND CHILBLAINS—This Liniment has no equal. Bind it on freely. Two or three applications generally suffice.

The Proprietors are receiving many statements from agents and others, of cures of rheumatism, sprains, frosted parts, chilblains, diseases of horses, &c., which they have not room here to present. Any one tasting this LINIMENT will discover that it is more penetrating than any other before the public.

WAKEFIELD'S EYE SALVE.

This is a reliable remedy for sore and weak Eyes, sore Lips, Chaps, old Sores, Chafes on children, and external humors. It is a very nice, scientific preparation, and a small particle of it answers for an application. It kills the humor, quiets, cools and heals, and is a useful article to have in a family. It is warranted equal to any EYE SALVE before the public.

FOR SORE EYES—Rub a small particle of the SALVE inside the eyelids and work the eyes until it is well distributed over the eyeball. The best time to apply it is on retiring at night.

FOR PROUD FLESH AND PILES.—Apply the SALVE freely to the part affected, several times a day until the proud flesh disappears.

DISEASES OF HORSES.

BOTS.—Stir a teacupful of molasses in a quart of warm milk and drench the horse as soon as possible. The bots will stop eating the coating of the stomach, for food they like better, and immediately relieve the sufferings of the horse. It is well to give the horse a pint of oil half an hour after he gets easy, to physic off the bots.

SWEENEY.—This disease, so common in the West, is known by the shrinking and tightening of the skin on the shoulder, and a lameness of the horse. It is easily cured. Rub the part affected with **EGYPTIAN LINIMENT**, fifteen minutes each time, with the naked hand threetimes a day, and feed the horse on bran or light feed other than corn. If the skin seems tight it should be pulled loose with the fingers. Wash the shoulder with suds every third day, and oint with lard or sweet oil to keep the hair right. Let the horse rest two weeks. Rubbing briskly causes the **LINIMENT** to penetrate more thoroughly.

COLIC.—Give the horse one bottle of **BLACKBERRY BAL-SAM**. If not easy in half an hour give another. A tobacco injection is needed in obstinate cases.

IN CASES OF BIG HEAD, Spavin, Windgalls and similar diseases, use the **EGYPTIAN LINIMENT**, with a great deal of rubbing, three times a day.

GALLS AND CHAFES.—Apply the **LINIMENT** two or three times a day. Wash the gall every time you remove the harness.

No stable should be without this stimulating and thorough **LINIMENT**.

PURE BLOOD.

To insure pure blood, which is so essential to sound health, use **Wakefield's WINE BITTERS**. It is a thorough Blood Purifier. With pure blood no chronic diseases, sores, ulcers, eruptions, sore eyes, sore mouth or glandular diseases will occur.

SKIN DISEASES of long standing are cured by **Wakefield's WINE BITTERS**.

GHONORRHEA and LUCORRHEA cured by the **WINE BITTERS**.

FOR NEURALGIA—Take **COUGH SYRUP** in large doses to produce relaxation and apply cloth wet in salt and water over the back part of the head.

OUR sugar coated **AGUE AND FEVER PILLS** are pleasant to take, a sure remedy, and set well on the stomach.

FOR sour stomach use **Wakefield's THROAT LOZENGES**.

FOR Sore Lips, apply the **EYE SALVE** in sufficient quantities to keep the lips thoroughly moistened.

BLOOMINGTON NURSERY.

600 Acres. 19th Year. 10 Greenhouses.

Fruit, Ornamental and Nursery Stock, immense and reliable assortment, very low for cash.

APPLES--

Most magnificent stock, including hardy Northern sorts, such as DUCHESS OLDENBURG, HISLOP, TRANSCENDENT and other Crab Apples, 1, 2 and 3 year.

Also, superior colored plates of Fruits and Flowers. Send 10 cents for Catalogues.

29]

F. K. PHOENIX,
Bloomington, McLean Co., Ill.

WAKEFIELD'S THROAT LOZENGES.

This remedy, though recently introduced to the public, has been long known and well tried by the Proprietors for the cure of Sore Throat, Diphtheria, Sore Tonsils, Sore Mouth, Sore Gums, Scurvy of the Gums, Sore Lips, Soreness in the Stomach, Waterbrash and Heartburn.

If the disease is in the throat, the LOZENGE should be held as far back on the tongue as possible, until dissolved. If in the mouth, it should be held in direct contact with the affected part until dissolved, without chewing.

For Scurvy or Sore Lips, a LOZENGE should be softened with a few drops of water and applied with a soft rag or with a swab. Travelers, and all persons afflicted with acidity of the stomach, will find these LOZENGES a very convenient and pleasant remedy to use, and they will cure some forms of dyspepsia that other remedies fail to relieve.

Tickling in the throat, sometimes causing protracted cough, and often affecting the speech, is cured by these LOZENGES.

There are twenty-four of these Lozenges in a box, eight of which are dark color and powerful for relieving cold in the head.

FOR RINGWORM—Use a solution of Sulphate of Copper, applying it several times a day, until cured. [29]

BROWENS RAT KILLER.

This valuable Vermin Destroyer is still manufactured by the Proprietors of WAKEFIELD'S MEDICINES and sold by them in large or small quantities, as are all of their popular remedies.

They have long noticed the superiority of this article in exterminating rats, and that its composition is such that it does not dry up or otherwise injure by age, as other similar preparations have done.

For sale by Druggists generally.

WHAT OUR PATRONS SAY.

PETER TROXWELL, of Sangamon county, Ill., says: My children had the Typhoid Pneumonia. I treated them with Wakefield's Medicines, and they all did much better than my neighbors, who depended on physicians and had large bills to settle.

ISRAEL MUNDIES, of Old Ripley, Bond Co., Ills., says: I have relied on your Medicines for the past fifteen years, in raising a large family of children, and I still believe they are the best remedies in the West. Lately my children were afflicted with sore eyes, and your EYE SALVE cured them all.

T. J. RAY, of Lawrenceville Ill., writes: Too much cannot be said in praise of your LIVER PILLS. I was severely attacked with pain in my liver and kidneys, from which I could get no relief until I was induced to try your LIVER PILLS, and by following directions an entire cure was effected.

J. E. TAYLOR, of Wyreka, Mo., writes: I have been afflicted with sore eyes for *ten years*, and during that time have tried various remedies and many doctors without success, but have now entirely cured them with only one box of your EYE SALVE.

H. A. GARFIELD, of Ayersville, Mo., writes: I was induced to use your EGYPTIAN LINIMENT for a kick on the stifle joint of my horse, and it proved an effectual cure, leaving no blemish. It is the best I ever used.

GEORGE HAYWOOD, of Clifton, Iowa, under date of March 15, 1860, writes: Although I have sold Wakefield's and other Medicines for years, I was never much of a believer in any of them, but from two cases of *positive cure* of Sick Headache, where the parties had been afflicted from childhood, which came under my immediate observation, I am forced to conclude that Wakefield's WINE BITTERS, if thoroughly used, will effectually cure this complaint.

AGUE AND FEVER PILLS.

To accommodate those who prefer taking sugar coated pills to FEVER SPECIFIC, we are now putting up AGUE AND FEVER PILLS, in nicely sealed bottles, which, like the SPECIFIC, is a sure remedy for Ague and Fever, all forms of fever, and all periodic diseases. They are equal to the SPECIFIC in use, and more acceptable to the stomach. The taste of the medicine is wholly obscured by the sugar coating on the pills. They will be sent to agents with our other remedies, when ordered, and to any person by mail, on receipt of retail price, one dollar.

ECLECTIC TOOTHACHE DROPS.

This is a very powerful sedative and anti-spasmodic remedy, which immediately quiets and relieves the pain of an aching tooth.

DIRECTIONS.—Wet a little cotton with the DROPS, and press it firmly in the cavity of the aching tooth. If you have beeswax handy apply a little over the cotton, to keep it in place. Also, with the end of the finger, rub a few drops externally over the root of the tooth and rub briskly to make it strike in. If the pain is not quieted in five minutes, apply the DROPS again externally and continue the rubbing; or, it may be applied high up on the gums. Sometimes the cavity of the tooth needs a little scraping out, to give the remedy access to the diseased nerve.

DIRECTIONS

For administering Wakefield's MEDICINES are given for disease in its milder form, before it assumes a serious character; but when given for severe attacks a more heroic treatment should be pursued, by giving double or even treble doses, as the emergency of the case seems to require to produce the desired effect. No poisons being used no dangerous results can arise from treble doses.

ACTIVE PURGING.—Few diseases require active purging of the bowels. It debilitates the bowels, when not diseased, without relieving the organs affected. It is better to use Wakefield's LIVER PILLS in moderate and more frequent doses, and cleanse the liver, stomach and blood without any unnecessary irritation to the organs not affected.

[31]

WE SEND Pills, Lozenges and Plasters by mail, on receipt of retail price. Liquids are not mailable matter.

FOR the benefit of the public and in justice to the "LAMAR" Insurance Co., I would here say to my numerous patrons that I am well acquainted with the workings and financial management of this new Western Company, and have no hesitation in saying that I believe it to be worthy of your fullest confidence; that its capital stock, (\$5,000,000) will soon all be taken by its numerous branches, when it will be one of the mammoth companies of this country. Its officers I know to be men of great energy, ability and caution.

If you would avoid paying tribute to the East, by keeping your money in the West and patronizing home institutions, insure your property in the LAMAR Insurance Company.

VARIOUS CERTIFICATES.

SNYDER & SON, of Nashville, Knox Co., Ind., say: We have sold Wakefield's Medicines three years, and have not known a failure in their healing effects. Our senior partner was troubled with a distressing cough for nineteen years and tried a great many physicians and several patent medicines without much relief, until we commenced selling Wakefield's Medicines, when he tried the COUGH SYRUP, which has entirely cured him. The BAL-SAM never fails to cure diarrhea, and every person who has used these Medicines recommend them to their neighbors.

EDWIN MEAD, of Ashkum, Iroquois Co., Ill., says: We have used your Medicines in our family for the past five years, and consider them invaluable, as they have proven to be, by following the directions given, in a number of critical cases, to my entire satisfaction.

I. T. CALDWELL, of Athens, Clark Co., Mo., says: Having had a severe cold and cough of six or eight weeks standing, I tried several kinds of medicine supposed to be good, but found no relief. At last your COUGH SYRUP was recommended. I bought a bottle and two or three doses gave instant relief.

C. H. WARD, of Altona, Ill., says: Your Medicines are the thing for the people. I sell a large amount each year, and I have yet the first complaint to hear.

WM. N. BENNETT, of Metea, Ind., says: Your FEVER SPECIFIC has proved to be the best remedy for Fever and Ague that has ever been introduced in this part of the country, and sells very rapidly.

GEO. SHAFFER, of Forsythe, Ill., says: Your BLACK-BERRY BALSAM and COUGH SYRUP are by far the best medicines known. So we and the people of this vicinity think. I could send you the names of twenty men who have tried these remedies and know. Two years ago my wife had the flux, continuing for a long time. After a dozen different kinds of medicine had been tried without avail, we used your BLACKBERRY BALSAM, when she was entirely cured in two days. It has been tried here in severe cases of cramp colic, with perfect success.

C. SCHMALHAUSEN, of Bridgeport, Ill., says: Your WORM DESTROYER gives general satisfaction. Judge Potts, living one mile from this place, told us that one box of your WORM DESTROYER expelled eighty worms from his child, who has now regained perfect health. We sell more of this medicine than all other remedies for that disease.

Z. CARSON, of Scotland, Greene Co., Ind., says: Dr. Wakefield's WINE BITTERS and RHEUMATIC PLASTERS are the best medicines I ever sold. The same may be said of the WORM DESTROYER.

WAKEFIELD'S FAMILY MEDICINES.

These popular Remedies are for sale, at manufacturers' prices, by all Wholesale Druggists in Chicago, St. Louis, Cincinnati, Indianapolis, Terre Haute, Peoria, Keokuk, Leavenworth, St. Joseph, Kansas City, Nebraska City, Council Bluffs, Springfield, Alton, Quincy, and many other places.

SUMMARY.

If troubled with Diarrhea or Colic, use Wakefield's BLACKBERRY BALSAM;—If with habitual costiveness, biliousness, Liver Complaint, Jaundice, or Dyspepsia, use the WINE BITTERS or LIVER PILLS;—If with Chills, Ague and Fever or Bilious Fever, use our FEVER SPECIFIC or AGUE AND FEVER PILLS, either of which are sure remedies. For Rheumatism, Numbness and weak back, use the EGYPTIAN LINIMENT and RHEUMATIC PLASTER. As a *thorough alterative and purifier of the blood*, use the WINE BITTERS. In short, for most any of the ills that flesh is heir to, you will find in our list the required remedy. For further particulars see inside.

USEFUL RECIPES.

YANKEE MEAL PUDDING.—Boil three pints sweet milk; then in a bowl take a coffee cup corn meal; one-half ditto flour, wet them with cold milk and make a batter free from lumps and add to the boiling milk; add a small tea-spoonful of salt, three eggs well beaten and one tea-cupful of molasses. Bake three hours and serve with sweetened cream. When cool, add three eggs.

WHITE CAKE.—Take the whites of six eggs, beaten to a froth; two cups flour sifted; two cups powdered white sugar; one-half cup butter; do. sweet milk; one-half tea-spoonful soda, and one tea-spoonful cream tartar.

MILCH COWS will give more throughout the season if supplied during the period between the time they "come in" and "grass"—with succulent feed—roots, grain sown for soiling, etc.

HORSES.—For weak eyes, pour a table spoonful of fresh butter into each ear, and wash the eyes with milk.

For inflamed swellings and Pleurisy, apply a strong solution of saltpetre.

For founder, take a table spoonful of pulverized Alum, and after pulling the horses tongue out of his mouth as far as possible, throw the alum in his throat, then let go his tongue and hold up his head till he swallows it. This is said to be a perfect cure.
